

Environmental Policy

This policy statement formalises the company's current working practices regarding environmental issues.

Grey Simmonds Food Service Equipment Limited recognises the importance of Environmental Protection and will comply with all relevant environmental regulations, legislation, and approved codes of practice relating to the process and activities of the company. Grey Simmonds Food Service Equipment Ltd.'s objective is to co-operate with and maintain good relations with all regulatory authorities and bodies.

It is the declared policy of Grey Simmonds Food Service Equipment Ltd to carry out all measures reasonably practicable to seek to meet, exceed, or develop all requirements to improve environmental performance. The aims will be to, wherever possible:

- Assess the environmental effects of the company's activities in its supply of Products, Services, Installations, Repairs, and technical support to the Catering and Leisure Industry establishments.
- Reduce the amount of waste produced and utilise recycling facilities wherever possible.
- Reduce the consumption of raw materials, water, and fuels.
- Maintain working practices that do not cause any pollution of the environment.
- Increase the use of recyclable and renewable materials.
- Limit the noise within and around the site.
- Lessen the risk to employees and the public from processes and activities associated with the company.

The company will foster environmental awareness and understanding in all employees, suppliers, customers, and the public. Where practicable, the company will provide information and assistance to customers on environmental issues arising from its products and services. It is the policy of Grey Simmonds Food Service Equipment Limited to review and regularly assess any improvements to the Environmental Policy and working practice.

The Company will review the environmental objectives, targets, and performances at regular intervals. The Company will endeavour to invest in Environmentally Friendly solutions to help reduce its impact on the Environment and its CO₂ emissions.

Signed:

Scott Dackombe
Managing Director
